Monitor the head demo

async **test.demo_touch.test_ObserveHeadRacket()** [source]

Monitor head event demo

Monitor the head event, and report the head type when the robot's head is tapped

When the head of the robot is double-clicked, stop monitoring and dance a dance

ObserveHeadRacketResponse.type:

class HeadRacketType(enum.Enum):

SINGLE_CLICK = 1 # Click

LONG_PRESS = 2 # Long press

DOUBLE_CLICK = 3 # Double click
